Quoted from the Transition Network News Update: 23rd September 2008" “Humans are capable of a unique trick, creating realities by first imagining them, by experiencing them in their minds. … As soon as we sense the possibility of a more desirable world, we begin behaving differently, as though that world is starting to come into existence, as though, in our mind’s eye, we are already there. The dream becomes an invisible force which pulls us forward. By this process it begins to come true. The act of imagining somehow makes it real… And what is possible in art becomes thinkable in life”. Brian Eno."
